

RHINO II

THE WORLD'S PREMIER **PALLET RACK MOVER**

The Rhino II Mobilization System is the industry-standard mobilization system for moving fully assembled, loaded pallet racks and storage shelving fixtures.

The Rhino II skate's robust steel construction, rugged 5" casters, and versatile adapter yokes overcome the unique challenges of storage fixture environments.

Quick Facts

Fixtures: Pallet racks, storage shelving fixtures

Industries: DIY retailers, home improvement retailers, warehousing, distribution centers

KEY FEATURES

Ratcheting lift mechanism

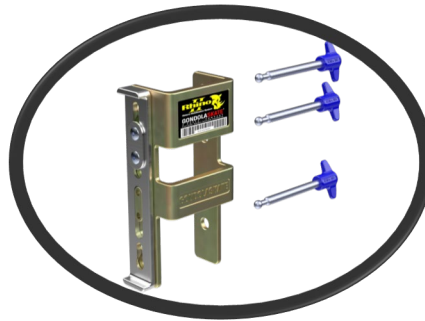

Quick install design

Heavy duty 5" casters

Ratcheting lift mechanism

With its integrated lift mechanism operated by a simple drive ratchet, the Rhino II lifts heavy fixtures with minimal effort.

Quick install design

Versatile adapter yokes securely attach to a wide variety of pallet rack upright styles and narrow flue spaces.

Heavy duty 5" casters

Rugged 5" polyurethane casters support the weight of fully assembled, loaded pallet racks and overcome debris without damaging floors.
