

SIDEWINDER

SLEEK AND SPEEDY PALLET RACK MOVER

The Sidewinder system is a lighter, sleeker, and faster version of its big brother, the Rhino II. Its various yoke attachments incorporate a clamping and quick release design, setting the new standard for pallet rack mobilization speed.

Thanks to the Sidewinder's transit system, transferring equipment between pallet racks and storage boxes has never been easier.

Quick Facts

Fixtures: Pallet racks, storage shelving fixtures

Industries: DIY retailers, home improvement retailers, warehousing, distribution centers
