

# FALCON II

## NEXT GENERATION RETAIL FIXTURE MOBILIZATION

The Falcon II Mobilization System is the perfect fixture mobilization solution for job sites with limited aisle space and loaded shelves.

Its compact design, sturdy aluminum frame, rugged casters, and sleek accessories were engineered for the safety, speed, and efficiency required for retail fixture mobilization.

### Quick Facts

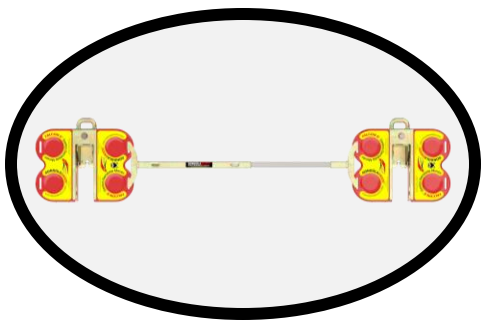

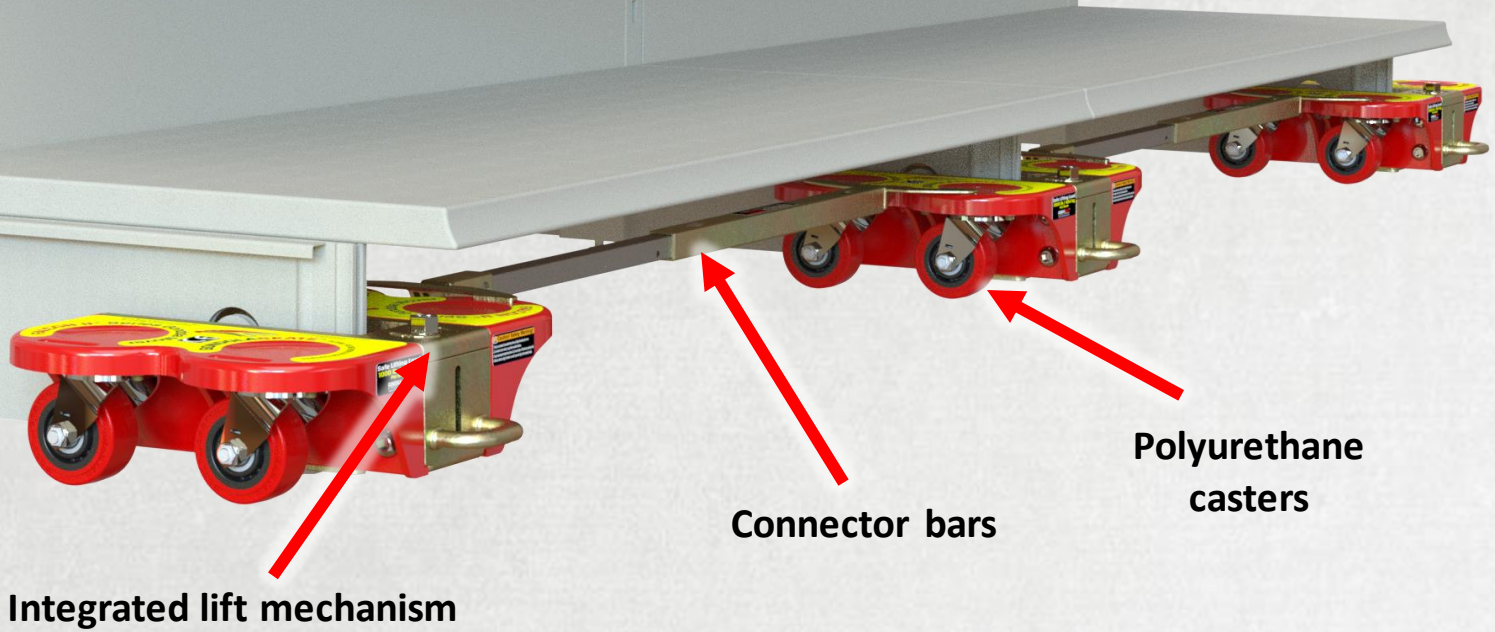

**Fixtures:** Solid base bracket style gondolas, such as Lozier

**Industries:** Pharmacies, pet supply stores, hardware stores, auto part stores, party stores, variety stores, convenience stores, sporting goods stores

### Trusted By:

# KEY FEATURES

**Connector bars**

Move multiple gondola bays at once with sturdy connector bars that prevent snaking and damage to the fixtures.

**Integrated lift mechanism**

With its integrated lift mechanism operated by a simple ratcheting wrench, the Falcon II conveniently operates in narrow workspaces without compromising strength.

**Polyurethane casters**

Rugged polyurethane casters support the weight of fully loaded gondolas and overcome debris without damaging carpet, LVT, or VCT floors.

## Box Specifications
